PROOF OF PUBLICATION

STATE OF UTAH }
County of Tooele } ss.

I, Scott C. Dunn, being first duly sworn, depose and say that I am the Publisher of the Tooele Transcript-Bulletin, a twice-weekly newspaper of general circulation published each Tuesday and Thursday at Tooele City, Tooele County, Utah; that the notice attached hereto and which is a part of the proof of publication of

NOTICE OF TENTATIVE DECISION TO APPROVE NO. M/045/046

BEFORE THE DIVISION OF
OIL, GAS AND MINING
DEPARTMENT OF
NATURAL RESOURCES
STATE OF UTAH

IN THE MATTER OF A
TENTATIVE DECISION TO
APPROVE THE LARGE
MINE NOTICE OF
INTENTION FOR
McFARLAND &
HULLINGER'S SIO2-#1-6
MINE, TOOELE COUNTY,
UTAH

THE STATE OF UTAH TO
ALL OPERATORS, TAKERS
OF PRODUCTION,
MINERAL AND ROYALTY
OWNERS, AND
PARTICULARLY ALL
PERSONS INTERESTED IN
SECTIONS 21 AND 28,
TOWNSHIP 1 NORTH,
RANGE 6 WEST, SLBM,
TOOELE COUNTY, UTAH.

Notice is hereby given by the
Division of Oil, Gas and
Mining of its tentative
decision to approve the
Large Mining Operations
Notice of Intention for
McFarland and Hullinger's
SIO2 #1-6 Mine. Mining
activities will affect the
following area: NW1/4 of the
NE1/4 and the NE1/4 of the
NW1/4 of Section 28, and the
SW1/4 of the SE1/4 of
Section 21, Township 1
North, Range 6 West, Tooele
County, Utah.

This is an existing high silica
sandstone quarrying
operation. It is a small
mining operation which is
being expanded to a large
mining status. McFarland
and Hullinger will employ the
following mining and
reclamation techniques on
approximately 40 acres of
land.

During Operations:

The base of the operating
area is used for product
stockpiling and processing of
quarried material. Available
topsoil was pre-stripped from
this area and stockpiled for

Notice of Tentative Decision to Approve

was published in said newspaper for one issue(s), the
first publication having been made on the 28th day of September
20 00, and the last on the 28th day of September, 20 00;
that said notice was published in the regular and entire issue of every
Thursday edition of the paper during the period and time of
publication, and the same was published in a newspaper proper and not in a
supplement.

Scott C. Dunn

use in final reclamation
Drills holes in the quarry area
will be loaded with explosives
and blasted. The blasted
material will fall or be pushed
down to a collection point
where it will be picked up by
loaders. The material will
then be crushed and sorted
for proper size gradation.
This site will produce
approximately 240,000 tons a
year of product. No waste
will be produced. All mined
and crushed material is sold
as marketable product.

After Operations:

The processing areas and
access roads will be
reclaimed by ripping and then
redistributing the stockpiled
topsoil material to a 6-inch
depth, then reseeded in
accordance with the
prescribed seed mix. The
working face (highwall of the
quarry) will be left as is and
allowed to oxidize, returning
to its original color naturally
and permanently. About half
of the total disturbed area will
be reclaimed. The balance
will remain as quarried
highwall area.

The person representing the
company is Mr. Sid Hullinger.
Phone (435) 882-0103.
McFarland and Hullinger is
fulfilling obligations under the
Utah Mined Land
Reclamation Act of 1975
Utah Code Ann. §40-8-18.

Any person or agency
aggrieved by this tentative
decision to issue approval is
hereby requested to submit
written protest within thirty
(30) days of the date of
publication to Mary Ann
Wright, Associate Director of
Mining, Division of Oil, Gas
and Mining, 1594 West North
Temple, Suite 1210, Box
145801, Salt Lake City, Utah
84114-5801, setting forth
factual reasons for the
complaint. If no responsive
written protests are received
by the Division within 30 days
after the last date of
publication, the tentative
decision of the Division will
be final.

DATED THIS 25th day of
September, 2000
